BACKGROUND/SUMMARY:

SBCBH has been providing PATHS services at Hollister High School for several years. Promoting Access Trust and Healthy Behaviors in Schools (PATHS) Program is a school-based Prevention and Early Intervention (PEI) program that provides preventive mental health services to children and youth, ages 5- 18, including high school students. The program offers prevention services for different age groups of children and youth, providing support to prompt early identification, intervention, and outcomes to help resolve behavioral health issues before they become more serious. These prevention school-based services are designed to link children and youth to resources, supports, and interventions that create strong families and resilient children and youth, while reducing risk factors. SBCBH works with Community Solutions to help provide some staff and services at Hollister High along with other schools in the county.
