3. Authorize the advertisement for bids to construct the project.

SBC FILE NUMBER: 105.3

**AGENDA SECTION:**

CONSENT AGENDA

**BACKGROUND/SUMMARY:**

This project is funded under the Federal Highway Administration (FHWA) Highway Bridge Program (HBP) to replace the existing bridge structure on Rosa Morada Road spanning the Arroyo Dos Picachos Creek to correct the substandard design bridge that experiences overtopping during flooding. The project was initiated after federal funds were obligated by FHWA to fund the project in 2010. The new structure as proposed will be constructed along its existing alignment, meet current design and construction standards as well as current site requirements. It will be 66 feet in length, 36 feet in width, clear spanning Arroyo Dos Picachos Creek and will provide two 12-foot traffic lanes with adjacent 4.25 foot shoulders. A temporary detour will be constructed just to the north of the existing structure to maintain the existing traffic while the new bridge is being constructed. Traffic will be diverted to the new bridge once construction has been completed. The project has received the necessary environmental and right of way clearances and has recently received, through Caltrans, the required federal

authorization to proceed with construction and to advertise the project.

The plans and specifications for this project are also now complete and presented for approval of the Board and authorization to advertise for bids. Procurement for consultant services to provide the required construction contract administration and construction engineering on the project has commenced and is expected to be awarded prior to awarding of the construction contract. The engineer's construction cost estimate for this project is approximately \$5.07 million. Federal funds will cover 100% of the total construction cost.

Upon board approval, the project will be advertised for bids. RMA will return to the board to approve the award of the construction contract to the lowest responsible bidder in November 2025 depending on the actual advertisement date. Preconstruction is anticipated to begin in January 2026 consisting of tree removals with the major road and bridge construction to begin in May 2026 and to last until early winter 2026.

### **FISCAL IMPACT:**

This project is budgeted for \$5 Million for this fiscal year 2025-2026. This source of fund for this project is 100% FHWA. The GL# is 210.70.2020.1211.

### **STAFF RECOMMENDATION:**

1. Adopt the plans and specifications for the PWB-2355 Rosa Morada Bridge At Arroyo Dos Picachos Creek Bridge Replacement Project – Federal Aid Project No. BRLO-5943(055); and
2. Authorize Chair to sign the Invitation for Bids for PWB-2355 Rosa Morada Bridge At Arroyo Dos Picachos Creek Bridge Replacement Project which includes three books of project specifications; and
3. Authorize the advertisement for bids to construct the project.
