SBC FILE NUMBER: 105

AGENDA SECTION:

REGULAR AGENDA

BACKGROUND/SUMMARY:

The roads and bridges owned by the County are an asset to the community. During recent Board of Supervisor meetings, the Supervisors have requested that the Resource Management Agency (RMA) provide an update regarding the status of this infrastructure.

The goal of the RMA is to maintain and upgrade a safe and efficient road system. We strive to enhance the quality of life in our community and acknowledge that achieving that objective requires diligent efforts and collaboration to cost-effectively utilize the resources available.

There is currently 450 miles of roads and 51 bridges maintained by the County of San Benito County.

Bridge updates will be provided on a quarterly basis as those projects have a more prolonged schedule due to complex environmental analysis.

This Road Project Status presentation will highlight the following:

- 1) Recently completed or ongoing construction
- 2) Planned construction

At the Board Meeting on January 14, 2025, Supervisor Requested a Future Agenda Item to explore options to establish another road improvement package. This would be an additional package that would encompass more road improvements beyond what is currently approved and scheduled and discuss more roadways to be repaved, as well as other road infrastructure upgrades, explore priorities, proposed options, and explore funding for another road improvement package.
