AGENDA SECTION:

CONSENT AGENDA

BACKGROUND/SUMMARY:

Penal Code Section 13510(a) gives Police Officer Standards and Training (POST) the authority to establish minimum selections standards for peace officers employed by agencies that participate in the POST program, of which the Sheriff's Office does. These peace officers must, at a minimum, meet the selection standards outlined in the Government Code, and pass the POST selection requirements contained in Commission Regulations 1950-1955 prior to hire. One of these required standards (Regulation 1953) is a background investigation. The history of a peace officer applicant must be thoroughly investigated to make sure that the applicant is of good moral character (Government Code 1031 (d) and that nothing in his/her background is inconsistent with performing peace officer duties. The background investigation is also conducted to ensure that the applicant meets the minimum selection requirements of Commission Regulation 1953 and Government Code Section 1031.

The Sheriff's Office has utilized four (4) different businesses over time to meet the above requirements.

Two businesses have closed due to retirements, one does not consistently produce the final report timely or accurately and the fourth is the subject of this item, Secure Solutions. We have worked with the contractor since October 2022, and their work product continues to exceed not only our standards but those of POST. The lead investigators are in constant contact with our command staff and report any red flags prior to the completion of the background to ensure we are not fully charged for an applicant that will not meet standards.

The current contract commenced October 1, 2023, and is due to expire June 30, 2025. There are currently four applicants in background with another four (4) anticipated. The request to increase the contract amount is to ensure FY2024-25 invoices are covered under this contract.
