[E. Ordinance 14-21 Amending Entirety of Chapter 54_Reference.pdf](#)

Background: On December 6, 2007, the Dunedin City Commission adopted

Resolution 07-17, amending Exhibit "A", an Exhibit referenced in Ordinance 54-32, "Operation of watercraft from Dunedin Causeway Beach regulated; definitions; operation of watercraft within certain distance from mean high waterline of Dunedin Causeway Beach regulated".

On October 23, 2014, the Dunedin City Commission adopted Ordinance 14-21, which amended the entirety of Chapter 54, including Exhibit "A". In this Ordinance, there were no updates or changes made to Exhibit "A".

Resolution 26-21 being presented to the City Commission on September 3, 2026 is simply an update to Exhibit "A", the map depicting Dunedin Causeway waterway usage referenced in Section 54-32 of the Code of Ordinances . It does not alter any of the water way usage designations, but simply provides for an updated, cleaner, and more legible map. It should be noted that Resolution 26-21 does not change any of the water designations. Additionally, Resolution 26-21 does not pertain to the adjacent land use designations. The changes to the map beyond cleaning the drawing include: updating the legend to correct the cited Ordinance number to the correct number referenced in the mapping designations; and updating the title bar, including City address and Resolution number citations.
