**Title: OA - Home Occupation/Cottage Occupation – Information/Discussion**

This is a proposal to amend regulations for “home occupations” and “cottage occupations” to address stated concerns from Board members, the Planning Commission, and the public about operating a home or cottage occupation. Specifically, the proposal would modify where the use may be conducted on the property, the total number of employees and customers allowed for each use and clarify allowances for commercial vehicles associated with a home or cottage occupation.
