**EXECUTIVE SUMMARY**

At the May 19, 2026, City Council meeting, the City Council directed staff to prepare a formal Code of Conduct for members serving on City boards, commissions, and committees. In response to that direction, staff, working with legal, has prepared the attached resolution adopting a Board, Commission, and Committee Member Code of Conduct and Ethics Policy.

The proposed policy establishes clear expectations regarding professionalism, ethical conduct, communication protocols, conflicts of interest, social media use, meeting participation, and the respective roles of appointed members, City staff, and the City Council. It is intended to promote respectful, transparent, and effective service by appointed volunteers while reinforcing public confidence in the City's advisory bodies.

The accompanying resolution would require all appointed members to acknowledge the Code of Conduct upon appointment or reappointment and establishes that violations may be reviewed by the City Council, with appropriate corrective actions available, including removal from service when warranted.
