BACKGROUND: Public Works is requesting the approval to obtain a purchase order to utilize Georgia GDOT Contract 48400-197-DOT0000640-003/TEMPLE INC for the procurement of eleven (11) uninterruptable auxiliary power supply and rack kits and eleven (11) preformed cabinet bases from Temple, Inc. These power supply and bases will be fitted to 11 of the 34 signals that Glynn County owns, operates, and maintains in Glynn County. The battery powered uninterruptable power supply units will allow traffic signals at these intersections to remain operational during electric power loss, which is the most common reason traffic signal go "dark", this is especially true during tropical weather events. The current 5-year budget plan provides for multiyear funding to procure and install the auxiliary back up power units and bases on all 34 Glynn County signals. County staff will complete the installation of these units upon receipt of the parts from Temple, Inc. Funding for these units and bases is provided in the FY 25 Public Works budget from line item 3154270-541400. This purchase and project does not include signals

owned and operated by GDOT or the City of Brunswick.
