BACKGROUND:	<p>In September 2024 Staff released the Frederica Road Traffic Improvements Plan Project to the Glynn County Engineering Services Pool. The design consultant's scope includes the analysis of the existing intersections along the corridor and to provide recommendations for intersection improvements. The design consultant will also analyze future (base and design year) traffic conditions, incorporating future planned projects into their analysis.</p> <p>In addition to the scope of work for Frederica Road corridor, the design consultant will also collect updated traffic data counts for Broadway Street between Old Demere Road and Postell Drive, and Postell Drive from Frederica Road to Broadway Street. This corridor serves as a major "cut-through" for motorist traveling from southern portions of St. Simons to Frederica Road. The design consultant will evaluate the traffic counts and patterns and provide</p>

recommendations for addressing cut-through traffic or safety and operational improvements for the route.

At the conclusion of this study, Staff will present some short term and long term solutions to the Board to consider.
