

## Granbury City Council

---

# AGENDA REPORT

**Meeting Date:** February 4, 2025

**Item Number:** 7.5

---

**SUBJECT:** Consider adopting Resolution No. 25-05 evidencing support of the proposed aesthetics and the respective cost on the US Highway 377 "Breakout Project".

---

### **BACKGROUND/DISCUSSION**

A presentation of these proposed improvements has been presented to Council in the past with the approximate cost for the aesthetic improvements that were sought out. These added aesthetic improvements are not funded by TxDot and at some point in the future, the city will need to execute an Advanced Funding Agreement for these improvement upgrades. By approving this resolution, it allows TxDot to move forward with confidence that the choices made are acceptable and they will include them in the design criteria for the bid documents and specifications for the project.

### **FINANCIAL IMPACT**

Approximately \$2.7 to \$3 million.

### **PRIOR BOARD OR COUNCIL ACTION**

Council has supported these proposed improvements in the past with informal support and this resolution solidifies their support.

### **SUGGESTED ACTION**

Staff recommends approving Resolution No. 25-05 as presented

### **STAFF CONTACT:**

Chris Coffman
