VILLAGE OF INDIANTOWN, FLORIDA
AGENDA MEMORANDUM

MEETING DATE:	December 11, 2025
MEETING TYPE:	Regular Village Council Meeting
AGENDA ITEM TITLE:	Approval of Agreement for Water and Wastewater Master Plan 20-Year Capital Improvement Plan with Kimley-Horn and Associates in the amount of $420,880.00.
SUMMARY OF ITEM:	The Village had a Water and Wastewater Master Plan performed in February 2022. Since the completion of the 2022 Master Plan, the Village has learned a lot about the water and wastewater system and is experiencing future development that was not contemplated back in 2022. As the Village focused on the need for improving the existing water treatment plant and for constructing a new Reverse Osmosis Water Treatment Plant, it was quickly realized that a significant amount of the existing utility infrastructure located "outside of the fence" was beyond its useful life and undersized to support the future developments within the Village. In addition, there is a significant amount of water and wastewater infrastructure that is constructed behind homes that makes access for maintenance challenging. This project will include the development of a Water and Wastewater Hydraulic Master Plan to identify weakness in the Utilities Infrastructure, identify aged infrastructure and to develop a 20- Year Capital Improvement Plan for proposed system improvements. Having specific projects identified will improve the Village's ability to apply for grants.
FISCAL IMAPCT STATEMENT:	Total amount of $420,880.00 to be paid from Water and Wastewater Utilities Department budget, which will require subsequent budget amendment.
RECOMMENDATION:	Staff recommends Council to authorize approval of agreement with Kimley Horn and Associates.
