VILLAGE OF INDIANTOWN, FLORIDA
AGENDA MEMORANDUM

MEETING DATE: March 26, 2026

MEETING TYPE: Regular Village Council Meeting

AGENDA ITEM TITLE: Subrecipient Agreement (MS018)- Railroad Avenue Water Transmission Main Replacement Project.

SUMMARY OF ITEM:

The Utility Department requests that the Village Council authorize acceptance of the Railroad Avenue Water Transmission Main Replacement Project, awarded by the Florida Department of Commerce.

Background

On January 16, 2025, the U.S. Department of Housing and Urban Development announced that the State of Florida would receive $925,394,000 in CDBG-DR funding to support long-term recovery efforts related to severe weather events that occurred in 2023 and 2024. These funds are administered by the Florida Department of Commerce through its Office of Long-Term Resiliency (OLTR). The CDBG-DR program is designed to address unmet recovery needs remaining after all other federal, state, local, and private assistance has been exhausted.

Of the total allocation, $400 million has been specifically designated for the Rebuild Florida Infrastructure Repair Program to fund infrastructure restoration and improvement projects within communities impacted by the 2023 and 2024 storms.

The Village of Indiantown has been awarded $7,900,000.00 in CDBG-DR funding for the Railroad Avenue Water Transmission Main Replacement Project.

Project Purpose

The proposed project will replace the existing Railroad Avenue water transmission main, which is more than 100 years old and has exceeded its useful life. The project includes the construction of a new 16-inch water transmission main along a revised alignment extending approximately 14,000 linear feet. The majority of the alignment will be located within public rights-of-way and Village-owned property, with a limited segment located within Chessie System and Seaboard Coast Line (CSX) railroad property. The improvements are intended to enhance system reliability, improve service levels through increased system pressure and fire flow capacity, improve accessibility for maintenance, and strengthen the system's resilience to future storm events.

FISCAL IMAPCT STATEMENT:

The Village of Indiantown has been awarded $7,900,000.00 in CDBG-DR funding for the Railroad Avenue Water Transmission Main Replacement Project. The grant provides full funding for the approved scope of work.

RECOMMENDATION:

Village Utility Staff recommends that the Village Council authorize acceptance of the Community Development Block Grant – Disaster Recovery Rebuild Florida Infrastructure Repair Program Subrecipient Agreement (MS018) and direct staff to proceed with implementation of the Railroad Avenue Water Transmission Main Replacement Project in accordance with the approved scope and budget.
