VILLAGE OF INDIANTOWN, FLORIDA
AGENDA MEMORANDUM

MEETING DATE: October 9, 2025

MEETING TYPE: Regular Village Council Meeting

AGENDA ITEM TITLE: Approval to Initiate Documentation to Martin County (County) and Florida Department of Transportation (FDOT) to Consider Including a Project for Planning and Funding Purposes for the Alignment of SW Allapattah Road and SW Dr. Martin Luther King Jr. Drive in Indiantown.

SUMMARY OF ITEM: SW Allapattah Road is a County owned road which connects to SR710 at roughly one-fifth (0.20) of a mile south of SW Dr. Martin Luther King Jr. Drive. Due to safety concerns that have been raised, FDOT has agreed to perform a feasibility analysis for signalization at SW Allapattah Road and SR710.

The Village of Indiantown (Village) has discussed having SW Allapattah Road aligned with Dr. Martin Luther King Jr. Drive. The Metropolitan Planning Organization (MPO) has provided the Village with the necessary documents that would need to be submitted to Martin County (County) with a letter requesting the County to request a project for their County owned road to be considered for inclusion in the Florida Department of Transportation (FDOT)'s future planning and funding.

The List of Priority Project Scoping Form (LOOP) and Engineer's Cost Estimate forms have a specific submittal timeline to be received for consideration and inclusion in future work programs. FDOT, in the past, has begun the distribution of the forms in November, with submittal by end of February. In some instances, FDOT may require public outreach

FISCAL IMAPCT STATEMENT: The LOPP Scoping Form is a technical document which includes a detailed engineer's cost estimate. The Village Engineer can provide the required information which would be an additional task order. The Village has been collecting mobility fees for projects within the Village. In addition, the

road impact fees the Village collects and remits to Martin County are to be utilized in specific areas within western Martin County, so there is funding available to cover the expense for the completion of the LOPP form and cost estimate.

Staff has asked for a quote to perform the additional tasks, and once received, if it exceeds the internal approval threshold ($15,000) it will be placed on a future agenda for authorization to proceed.

RECOMMENDATION: The Council approve utilizing the Village Engineer to provide the necessary documentation for a FDOT project application submittal to Martin County and a letter from the Village requesting the County have FDOT include a project for the alignment of SW Allapattah Road and SW Dr. Martin Luther King Jr. Drive in their future project lists for planning and funding.
