VILLAGE OF INDIANTOWN, FLORIDA
AGENDA MEMORANDUM

MEETING DATE: March 26, 2026

MEETING TYPE: Regular Village Council Meeting

AGENDA ITEM TITLE: Subrecipient Agreement (MS017) -Reverse Osmosis Water Treatment Plant Project.

SUMMARY OF ITEM: The Utility Department requests that the Village Council authorize acceptance of the Reverse Osmosis Water Treatment Plant Project, awarded by the Florida Department of Commerce.

Background

On January 16, 2025, the U.S. Department of Housing and Urban Development announced that the State of Florida would receive $925,394,000 in CDBG-DR funding to support long-term recovery efforts related to severe weather events that occurred in 2023 and 2024. These funds are administered by the Florida Department of Commerce through its Office of Long-Term Resiliency (OLTR). The CDBG-DR program is designed to address unmet recovery needs remaining after all other federal, state, local, and private assistance has been exhausted.

Of the total allocation, $400 million has been specifically designated for the Rebuild Florida Infrastructure Repair Program to fund infrastructure restoration and improvement projects within communities impacted by the 2023 and 2024 storms.

The Village of Indiantown has been awarded $9,300,000.00 in CDBG-DR funding for the Reverse Osmosis Water Treatment Plant Project.

Project Purpose

The purpose of this project is to secure funding for the Reverse Osmosis Water Treatment Plant Project, which will supplement

the Village's aging filtration facility through the construction of a new 6.0 MGD reverse osmosis water treatment plant. The facility will be initially designed to treat up to 4.0 million gallons per day (MGD), with the objective of improving water quality, enhancing system reliability, meeting projected future water demands, and increasing resilience to potential disaster events.

Upon completion, the project will improve water quality, expand treatment plant capacity, and provide operational redundancy. It will also reduce the risk of service interruptions during severe weather events and enhance the overall resilience of the Village's potable water system.

FISCAL IMAPCT STATEMENT: The Village of Indiantown has been awarded $9,300,000.00 in CDBG-DR funding for the Reverse Osmosis Water Treatment Plant project. The grant provides full funding for the approved scope of work.

RECOMMENDATION: Village Utility Staff recommends that the Village Council authorize the acceptance of the Community Development Block Grant-Disaster Recovery Rebuild Florida Infrastructure Repair Program Subrecipient Agreement (MS017) and direct staff to proceed with implementation of the Reverse Osmosis Water Treatment Plant Project in accordance with the approved scope and budget.
