

EXECUTIVE SUMMARY

Public Works

763-512-2345 / 763-512-2344 (fax)

Golden Valley City Council Meeting

July 7, 2026

Agenda Item

3D.1. Approve Agreement for the 2026 Sewer Lining Project with Visu-Sewer, LLC

Prepared By

Tim Kieffer, Public Works Director
Caleb Brolsma, Assistant City Engineer
Jason Ewell, Utility Maintenance Superintendent

Summary

The City regularly contracts lining of sanitary sewer pipes to rehabilitate deteriorated pipes. This work helps reduce blockages and infiltration.

Bids to line approximately 11,365 feet of sanitary sewer pipe were received on May 28, 2026. The results are listed below.

Hydro-Klean, LLC	\$435,952.67
Insituform Technologies USA, LLC	\$443,576.27
SAK Construction, LLC	\$504,857.00
Visu-Sewer, LLC	\$421,796.75

Financial or Budget Considerations

The 2026-2035 Water and Sanitary Sewer Capital Improvement Program (CIP) includes \$250,000 for Sanitary Sewer Lining I/I Reduction (W&SS-078). Additional funding will come from Bassett Creek Sanitary Sewer Rehabilitation (W&SS-127) which was below estimated costs.

Legal Considerations

The Legal Department has approved the contract.

Equity Considerations

The project aligns with the city's 2030 Strategic Directives of Infrastructure Maintenance and Enhancement. Reducing inflow and infiltration (I&I) in the wastewater system helps provide reliable, safe sewer service for all residents, especially in areas most vulnerable to flooding and sewer backups. By using system data to identify and prioritize the greatest needs, the department can direct resources where they will have the biggest impact. This work helps reduce sewer overflows, protect public health and the environment, lower long-term costs, and ensure equitable service across all communities.

Recommended Action

Motion to approve the Mayor and City Manager to execute the Contract for 2026 Sewer Lining Project with Visu-Sewer, LLC in the form approved by the City Attorney.
