

City of Plantation
City Council Chambers

Subject:

City-PAID partnership for the implementation of a seventh pump station to mitigate South Acres flooding vulnerabilities

Summary:

City staff have been coordinating with PAID for partnership opportunities to address flooding vulnerabilities. The District has indicated positive feedback from SFWMD for the implementation of a seventh pump station to service the South Acres. This is a promising opportunity that warrants the City's participation due to our assets in the area (roads and south acres park) and emergency response.

Background:

Funding:

TBD

Amount:

TBD

Finance Director/Budget Manager Recommendation:

If approved, this item will be funded by the General Fund, Fund Balance Assigned to Risk.
