City of Plantation  
City Council Chambers

**Subject:**

NW 5th Street & NW 46th Avenue Roadway Improvements

**Summary:**

Phase A preliminary Engineering design presentation for NW 5th Street & NW 46th Avenue roadway improvement project

**Background:**

Nearly 3 years ago, the City of Plantation engaged the services of the Broward Metropolitan Planning Organization (MPO) to complete a Multi-Modal Master Transportation Plan ("Plan"). In August 2023, the City Council approved a resolution formally adopting the plan. One of the projects included in the plan is improvement to NW 46th Avenue & NW 5th Street. The improvements would include replacing existing crosswalk with raised crosswalk, high visibility pavement markings, signage, installing RRFB, roundabouts and modular speed cushions etc... The proposed work authorization would provide for completion of the proposed construction drawing, including CEI.
