

REQUEST FOR ACTION

Indoor Recreation Financing Options (5:30 - 6:30 p.m.)

MEETING DATE:

July 13, 2026

ORIGINATING DEPT:

City Administration

AGENDA SECTION:

Presentation Items

PRESENTER:

Aaron Parrish

Report Narrative:

In 2025, the City Council requested options to finance indoor recreation facility options. Subsequently, the City has engaged in conversations with RCTC on the potential for facilities on campus and to sustain the existing dome while additional indoor options are being considered. While we continue to work on enhancing our existing collaboration around fields and the Sports Center (field house), constructing new facilities and maintaining the existing dome have been determined infeasible.

With the closure of the dome, an option of a dome on the Rochester Sportsplex was also brought forward for initial consideration. This was discussed at the April 27th City Council Study Session and June 1st City Council meeting. At that time more specific conversation around financing options was requested. Attached is a presentation that highlights some options. Based on the previous Council conversation, it also provides context on the City's investments in arts and culture.

If any of the options want to be pursued, it would be appropriate to direct the team to bring back a timeline and strategy for additional community conversation on the preferred option.

Priorities & Foundational Principles:

Transformational Capital Projects
