

City Council Staff Report

Subject: Service Fee for SB 1383 Educations and inspections Services and Agreement with Placer County for Services

Date: April 11, 2023

Submitted By: Justin Nartker, Director of Public Services

Department: Public Services

Recommendation:

- A. Hold a public hearing regarding the implementation of a service fee for SB 1383 Education and Inspection Services.
- B. Adopt a Resolution of the City Council of the City of Rocklin Adopting a Service Fee for SB 1383 Education and Inspection Services, and Approving the Agreement with Placer County for the Provision of SB 1383 Education and Inspection Services.

Background:

Senate Bill 1383 (SB 1383) was signed into law on September 19, 2016, mandating the reduction of organic waste disposal by 75% and increasing edible food recovery by 20% by 2025, in order to improve efforts to reduce overall methane gas emissions. It requires all local jurisdictions to implement relevant provisions of the CalRecycle SB 1383 Regulations, Title 14 California Code of Regulations, section 18981.1 et seq., pertaining to organic waste disposal reduction. SB 1383 requires all businesses, residents, and multi-family apartments to have access to recycling programs that capture food scraps and landscaping waste, among other organic waste materials.

SB 1383 requires local jurisdictions to verify that edible food generators (e.g. wholesale food vendors, large grocery stores, restaurants with seating over 250, etc.) are provided educational resources and are compliant with edible food recovery activities. This will be done to ensure that edible food that would otherwise be discarded is distributed to those in need via charitable feed operations. To meet these education and inspection requirements, City staff is recommending that the City approve a service fee for SB 1383 Education and Inspection Services, and enter into an agreement with Placer County Department of Health & Human Services (PCDHHS) to provide edible food generator and food recovery organization education and inspection services.

On March 16 and 23, 2023, a notice of public hearing for the implementation of a SB 1383 Education and Inspection Service Fee was published in the Placer Herald pursuant to Rocklin Municipal Code, Chapter 3.32, and California Government Code Sections 66016 through

66018.

The PCDHHS currently performs a variety of health inspections and is specially trained, experienced, and competent to provide educational resources to perform inspections and provide educational services to edible food generators (facilities) and food recovery organizations as defined in SB 1383. It is estimated that private businesses will be inspected approximately one (1) to two (2) times per year. PDHHS will invoice the City of Rocklin for their inspection services (see Attachment 3 for current fee and breakdown). The City will invoice the applicable inspected edible food generators and pass through the cost.

Fiscal Impact:

There is no direct fiscal impact to the General Fund. A pass through service fee will be instituted, and the City will invoice all applicable edible food generators for services rendered by Placer County.
