ITEM ACTION: Discussion and Vote

ITEM NOTES: Funds will be used to design and construct sidewalk and pedestrian safety improvements along the NYS Route 9N corridor from Kirby Road to West Avenue. This project directly responds to longstanding community concerns about unsafe walking conditions and limited pedestrian infrastructure in an area that includes residential neighborhoods, commercial uses, and major City destinations such as the Train Station, High School, YMCA, and the Community Farm. Additionally, with a new affordable housing development being built in this corridor, it is essential that future residents have a safe and accessible route into the City, as well as to nearby stores and services.
