

AGENDA # J.5
Scio Township Board of Trustees
New Jackson Rd Pump Station Generator

FOR MEETING DATE OF: April 9, 2024

PREPARED ON: 3/5/24

PREPARED BY: Brandon McNiel

SUBMITTED BY: Utilities

ITEM TYPE: Possible Action

SUGGESTED ACTION: Approval of Sourcewell contract price for New 300kwh generator through Cummins.

BACKGROUND: Upon my arrival it was made clear to me that our Jackson Rd Pump station generator was in need of being replaced. The age of the generator and the fact that it is not currently sized for our stations is the reason for upgrading to a new generator. This new generator will allow us to Parrell a connection to another generator when and if Scio needs to increase the wet well capacity of the current station in the future.

****This sourcewell pricing is a national competitive bid pricing for this Cummins generator.

This approval of allocating funds for the 2025 fiscal year will allow me to get this new generator on order as it may take up to a year to receive.

FISCAL IMPACT: \$98,274 in Sewer Fund Capital Outlay For Fiscal Year 2025

RECOMMENDATION: Utility Director- Recommends Approval

MODEL MOTION: To approve a new 300kwh Cummins generator for the Jackson rd pump station from sewer capital outlay funds in fiscal year 2025 in the amount of \$98,274.
