

**AGENDA # K.8**

**Scio Township Board of Trustees**

**To authorize Pipeline Management to Clean and TV SMH-1386 East to SMH-1230 and SMH-1229 south to SMH-1589 in preparation for the Sewer Metering Study.**

**FOR MEETING DATE OF:** March 24, 2026

**PREPARED ON:** 3/17/2026

**PREPARED BY:** Brandon McNeil

**SUBMITTED BY:** Utilities

**ITEM TYPE:** Possible Action

**SUGGESTED ACTION:** To authorize Pipeline Management to clean and televise the requested areas by OHM to ensure proper sewer meter data collection.

**BACKGROUND:** In coordination with OHM Advisors regarding the ongoing Sewer Metering Study, field inspections were recently completed on several sewer mains and manholes in preparation for the installation of sewer flow meters.

Following these inspections, OHM has notified the Utility Director that the identified sections of sewer mains and manholes require cleaning prior to meter installation. Proper cleaning is necessary to ensure that the sewer meters function accurately and that the data collected is reliable for the study.

These locations were already scheduled for cleaning this year as part of the upcoming Year 3 sewer cleaning and CCTV contract with Pipeline Management. However, to maintain the project timeline and ensure accurate metering results, the Utility Director is requesting the Board's approval to proceed with this work.

This approval will allow us to complete the necessary cleaning in coordination with OHM and ensure the Sewer Metering Study produces the most accurate and beneficial information for the community.

**FISCAL IMPACT:** \$18,408.00 from GL 590-000-823

**RECOMMENDATION:** Utility Director- Recommends approval

OHM- Recommends Approval

**MODEL MOTION:** To approve in an amount not to exceed of \$18,408.00 from GL 590-000-823 to Pipeline Management to clean and televise sections of sewer main in preparation for Scio Townships sewer metering study.
