M E M O R A N D U M

TO: Governing Board Members

FROM: Lucine Dadrian, P.E., Engineering, Construction & Modeling

DATE: November 12, 2026

SUBJECT: Survey and Mapping Services

Agenda Item Background:
As part of the District's Restoration and Capital Improvement Programs, the District has maintained a series of continuing professional surveying services contracts for several years now. This agenda item addresses the need to contract external professional surveying and mapping services to facilitate the delivery of the District's capital improvement and restoration projects, support real estate transactions, and other similar functions. The purpose of this Request for Proposals was to solicit technical proposals from qualified firms to provide professional surveying and mapping services for the District's Engineering and Construction Bureau, Survey Section.

Multiple contract awards are anticipated for a contract duration of a three-year period with two one-year options to renew. Assignments under each contract will be handled through various work orders under the contract. Approval of this agenda item will allow the District to continue or commence new design and construction support efforts for projects and District initiatives. Ten firms were selected in ranked order through the Request for Proposals procurement process.

Additional Item Background:
Core Mission and Strategic Priorities:
These contracts support the District's missions of flood control, water quality, and ecosystem restoration.

Funding Source:
The Fiscal Year 2026-2027 Budget includes approved Ad Valorem and dedicated funds, and the remainder is subject to the Governing Board approval of future years' budgets.
