

Memorandum

TO: City Council
FROM: Tim Cooney , IS Manager
DATE: April 7, 2025
SUBJECT: Authorize the purchase of security cameras, door card readers, supplies, and installation labor for Bobby Theisen park building
ITEM NUMBER: 8.n
SECTION: CONSENT AGENDA

REQUESTED MOTION

To award the proposal for security cameras, door card readers, supplies, and installation at the Bobby Theisen park building to Cable Cloud in the amount of \$41,740.00.

INTRODUCTION

The city council is being asked to approve a proposal to purchase security cameras, door card readers, supplies and installation labor for Bobby Theisen park building.

DISCUSSION

In an ongoing effort to deter vandalism, protect and secure city facilities, and make building access easier for employees and associations, city staff would like to continue its standardization of how park buildings are secured, by adding security cameras and door card readers to the newly constructed building at Bobby Theisen park. Over the last couple of years, security cameras and door card readers have been added to other park buildings throughout the city and have proven to reduce, if not eliminate, vandalism at these locations. There has also been a reduction in operating costs due to staff no longer having to issue keys and rekey door locks, along with the hours saved by not having to perform and manage these additional tasks. City staff solicited proposals from three vendors:

- Parallel Technologies - \$58,264.57
- Cable Cloud - \$41,740.00,
- Pro-Tec Design - \$50,751.09

The city has not worked with Cable Cloud in the past but staff feels their proposal best meets the needs of the city.

RECOMMENDATION

City staff recommends the city council approve the Cable Cloud proposal in the amount of \$41,740.00, to purchase and install security cameras and door card readers in the newly constructed building at Bobby Theisen park.
