INTRODUCTION

The city council is being asked to approve resolution 25-59 accepting a donation from the Patrick Schoonover Heart Foundation and the Schoonover Family per state law requirements.

DISCUSSION

The Patrick Schoonover Heart Foundation and the Schoonover Family recently donated two AED stations to the city for installation at Bobby Theisen and Commons parks. AEDs are used to deliver life-saving electrical shocks to individuals experiencing sudden cardiac arrest (SCA). They can significantly increase the chances of survival during these instances. Mike Schoonover, founder of the foundation, is also a member of the economic development commission and owner of Schoonover Bodyworks & Autocare. The foundation focuses on educating others about SCA and how to prevent and eliminate it in kids.
