**Approval RE: Work Order 25-18K, Enhancing Crossing Safety Project Grant Support
Scope of Services (Pg. 94)**

*For further information, please contact: laura.carter@sctpo.com
Strategic Plan Emphasis Area: Safety*

DISCUSSION:

In January, the Space Coast TPO received notification that it had been awarded the Railroad Crossing Elimination Grant by the Federal Rail Administration. The grant project, Enhancing Crossing Safety, includes the design and construction of additional safety enhancements at seven (7) grade crossing throughout Brevard County. Local partners include the City of Cocoa, City of Melbourne and Brevard County. Brightline will lead the final design and construction of the enhancements.

Consultant assistance to the TPO is requested for support of various analysis and coordination tasks that will be needed throughout the project. Activities may include partner agency engagement, environmental analysis and other transportation planning and engineering items. Work Order 25-18K provides a mechanism for TPO staff to utilize consultant services in a supporting role when necessary.

The TPO Governing Board authorized the Executive Director to execute any necessary agreements and work orders at their February 13, 2025 meeting. This work order was approved with a Notice to Proceed effective March 1, 2025 and is being brought to the TPO Board for ratification and approval.

REQUESTED ACTION:

Approve Work Order 25-18K, Enhancing Crossing Safety Project Grant Support Scope of Services
