# Weatherford City Council

## AGENDA REPORT

| | | | |
|---|---|---|---|
| **Meeting Date:** | July 14, 2026 | **Staff Contact:** | Eric Shumar, Director of Municipal and Community Services |
| **Item Number:** | 2026-931-AR | **Phone:** | 817-598-4342 |

**SUBJECT:** Consider approval of increasing the combined annual spend with Black Fox Services and 2033 Automotive, collectively, to an amount not to exceed $175,000.

**BACKGROUND/DISCUSSION**

On September 23, 2025, City Council approved an annually renewing contract with Black Fox Services and 2033 Automotive for fleet maintenance services for an amount not to exceed $125,000, executed October 16, 2025. The contract, procured through a competitive Request for Proposal (RFP) process, is available to all City departments and covers vehicle towing and mechanical repair services.

Through June 26, 2026, cumulative expenditures with Black Fox Services and 2033 Automotive total $117,000. The City anticipates continued need for these services through fiscal year-end. This request asks for consideration o an increase to the combined annual maximum spend across both vendors, collectively. The $175,000 threshold represents a single aggregate cap applied to the combined expenditures with both vendors, not a per-vendor limit.

**FINANCIAL IMPACT**

Approval of this item will authorize combined, cumulative expenditures with Black Fox Services and 2033 Automotive — collectively, not individually — not to exceed $175,000 in FY26.

Fleet maintenance costs are funded within each department's operating budget. No additional appropriation is required; this item authorizes the combined cumulative spend threshold only, shared across both vendors rather than allocated separately to each.

**SUGGESTED ACTION**

Staff recommends approval.
