

# Weatherford Municipal Utility Board

---

## AGENDA REPORT

**Meeting Date:** May 28, 2026

**Staff Contact:** James McGill, Assistant Director of  
Electric Utilities

**Item Number:** 2026-877-AR

**Phone:** 817-598-2558

---

**SUBJECT:** Consider authorizing the City Manager to execute professional services Task Order 2 with CEC Corporation for the design of relocating overhead utilities underground on Palo Pinto Street according to an existing master service agreement in an amount not to exceed \$548,250.

---

### **BACKGROUND/DISCUSSION**

The Texas Department of Transportation (TxDOT) is planning to reconstruct Palo Pinto Street from Santa Fe Drive to Bowie Drive. Before TxDOT can proceed, the overhead utilities along Palo Pinto Street need to be relocated underground. The utilities to be relocated underground are the City of Weatherford's electric lines, AT&T's communication lines, and Spectrum's communication lines. Staff issued a request for qualification, RFQ 2026-010, for various electrical engineering professional services in February 2026. Twenty firms responded to the RFQ, and twelve firms were selected to move forward with. CEC has been selected for this project and will provide distribution design, street light design, surveying, subsurface utility engineering, easement identification, and the preparation of construction documents. The target schedule for completion of this design is 8 months, however this is highly contingent on the cooperation of franchise utilities and TxDOT plan review times.

### **FINANCIAL IMPACT**

Funds in the amount of \$548,250 are available in the Electric Department's operating budget.

### **SUGGESTED ACTION**

Staff recommends approval.
