Weatherford Municipal Utility Board

AGENDA REPORT

Meeting Date:	July 30, 2026	**Staff Contact:**	Rick Shaffer, Director of Water Utilities
Item Number:	2026-944-AR	**Phone:**	817-598-4473

SUBJECT: Hold a public hearing on the 2025 Annual Water Quality Report.

BACKGROUND/DISCUSSION

The 1996 Safe Drinking Water Act requires public water suppliers to provide specific water related information to all customers on an annual basis. This information is provided to water utility customers in the form of a Water Quality Report, also referred to as a Consumer Confidence Report (CCR). The intent of this report is to inform and educate the public about the quality of our drinking water, compliance with regulations, our sources of water supply and other educational information. The Water Quality Report, and this public hearing, also serve to promote a dialog between customers and the water provider.

In June 2026, information for how to access and view the 2025 Water Quality Report on the City's website was mailed to customers as a billing insert in their monthly utility billing statement. Customers that receive an E-Bill were provided with a live link to view the current billing inserts and were also emailed a direct web address of the Water Quality Report. Hard copies were made available in public facilities here at City Hall and at the Weatherford Public Library. Hard copies were also mailed directly to customers upon request.

FINANCIAL IMPACT

None.

SUGGESTED ACTION

No action required.
