West:	R1 One Family Residential

BACKGROUND/DISCUSSION

The applicant is requesting approval of a final plat consisting of 9 townhome lots and 4 open space lots. The property is zoned Single-Family Townhome (SFTH) and Single Family Patio Homes (SFPH), which was approved in August 2006. The initial phase of the development was previously completed; however, the other phases were never constructed. The property remains eligible for development in accordance with the zoning regulations in effect at the time of approval. Staff has reviewed the applicable SFTH zoning standards and determined that the proposed lots comply with the minimum lot size requirements. The original development allowed for all townhomes, the new owner is proposing to develop this portion of the project in two phases, with Phase 1 consisting of 9 townhome lots and Phase 2 consisting of 89 single-family lots.

ALTERNATIVES

1. The City Council may approve the plat as proposed.
2. The City Council may disapprove the plat for specified reasons.

SUGGESTED ACTION/RECOMMENDATION

Staff recommends approval of the final plat subject to all requirements of the Subdivision Ordinance. At their February 11th, regularly scheduled meeting, the Planning & Zoning Commission voted (6-0) to recommend approval.
