Weatherford City Council

AGENDA REPORT

Meeting Date:	August 26, 2025	**Staff Contact:**	Matt Leppla, Director of Public Works
Item Number:	2025-304-AR	**Phone:**	817-598-4148

SUBJECT: Consider authorizing the City Manager to execute a professional engineering services contract with Kimley-Horn & Associates, Inc. for design of the Lamar Street Extension Project in an amount not to exceed $870,500.

BACKGROUND/DISCUSSION

To facilitate development in the area and improve mobility, the City has identified a roadway project that is needed to extend Lamar Street from West Park Avenue to Bethel Road, including a re-alignment of Tin Top Road at the intersection. The project includes the extension of approximately 3,000 linear feet of roadway, 2,500 linear feet of storm drain, 2,300 linear feet of 8" water line, and 1,000 linear feet of 8" wastewater line as shown on the attached project map. This project is identified on the City's Thoroughfare Plan, the 2021 Capital Improvement Program, and the 2021 Roadway Impact Program. This project was also identified as a priority during the 2025 City Council Retreat

In May 2025, staff issued the 2025 Request for Qualifications (RFQ) for Public Infrastructure Design Projects. Kimley Horn and Associates, Inc. (KHA) is one of the firms selected under the 2025 RFQ and has been selected to design this project. KHA has been selected to design this project due to their recent success designing several other projects for the City, including the Northwest Downtown Street Rehabilitation project. KHA's services will generally include surveying, road, drainage, water and wastewater design, preparation of construction documents and specifications, right-of-way document preparation, a traffic study, and traffic signal design. The design of this project is expected to be complete in 8 months with an expected completion of May 2026.

FINANCIAL IMPACT

Funds are allocated in the FY26 Proposed Budget to begin design. It is anticipated that all expenditures will be reimbursed through future bond proceeds.

SUGGESTED ACTION

Staff recommends authorizing the City Manager to execute a professional engineering services contract with Kimley Horn and Associates, Inc. for the design of Lamar Street Improvements in an amount not to exceed $870,500.
