

# Weatherford City Council

---

## AGENDA REPORT

**Meeting Date:** April 12, 2022

**Staff Contact:** Manny Palacios, Director of  
Transportation and Public Works

**Item Number:** 2022-193-AR

**Phone:** 817-598-4296

---

**SUBJECT:** Consider the purchase of Micro-Surface services for various City streets via an interlocal agreement with the City of North Richland Hills from Intermountain Slurry Seal Inc. in the amount not to exceed \$172,000.

---

### **BACKGROUND/DISCUSSION**

The Streets division fiscal year 2021-22 budget includes funds for micro-surfacing various streets. Micro-surfacing is a preventive street maintenance application that is part of the City's annual preventive street maintenance program. Micro-Surfacing is a thin maintenance treatment with a mixture of asphalt emulsion, graded aggregates, mineral fillers, water, and additives. When placed on the pavement surface the mixture cures creating a new wearing surface. The application reduces water infiltration, provides skid resistance, improves aesthetics, corrects raveling/weathering and minimizes oxidation/ageing. In most cases, Micro-Surfacing application will provide a performance life of about 5-10 years.

Approximately eight streets with an estimated total of 45,000 square yards are scheduled for Micro-surfacing treatment. Staff has been using this application on streets for the past 8 years and found it to be cost effective in comparison to other types of preventive maintenance treatments.

Intermountain Slurry Seal was selected through a competitive bid process by the City of North Richland Hills. These services are available via a cooperative purchasing agreement (or interlocal) with City of North Richland Hills.

### **FINANCIAL IMPACT**

Expected amount of Micro-surfacing to be performed is \$172,000. Funds are available within the constraints of fiscal year 2021-22 budget from account 150504-52211.

### **SUGGESTED ACTION**

Staff recommends City Council approval.
