

**BUSINESS OF THE CITY COUNCIL
YAKIMA, WASHINGTON
AGENDA STATEMENT**

Item No. 7.J.
For Meeting of: April 15, 2025

ITEM TITLE: Resolution authorizing an Emergency Purchase Order to repair Fire Ladder Truck 91 (Fire Capital)

SUBMITTED BY: Aaron Markham, Fire Chief

SUMMARY EXPLANATION:

Ladder Truck 91 was transported to True North in Hillsboro, Oregon to have cracks in the body of the truck repaired. Once the truck was in the True North facility, it was determined that having it inspected to determine if there were other necessary repairs would be in our best interest, so we proceeded with the inspection. During the inspection, multiple other issues were discovered, and a quote was provided for the parts as well as labor that would be needed in order to get the truck back to an operational state and back to the City of Yakima.

The work on Ladder Truck 91 is not complete at this point but is anticipated to cost a total of \$130,000. The cost for the repair of the cracks that the truck had originally been sent to True North for came to a total of \$12,331 and the total of costs relating to the other repairs and labor that have already been completed are currently at the amount of \$71,316.56.

ITEM BUDGETED: Yes

STRATEGIC PRIORITY 24-25: A Safe and Healthy Yakima

RECOMMENDATION: Adopt Resolution.
